

**Skill Level:**

This workshop is intended for photographers with previous photographic experience.

**Cameras and Other Equipment: What to Bring:**

- Digital SLR or rangefinder camera: We will be using digital cameras for this workshop. Students may work with high-end point – and – shoot cameras, but should bring a camera that allows for completely manual control.
- One or more lenses (see below)
- Extra memory cards
- Extra camera batteries
- Battery chargers for your equipment
- A tripod for photographing at night; a cable release
- A laptop computer
- A thumb drive

**Recommended:**

- At least one wide angle lens (17-35mm; 24mm; 28mm; 35mm; or 50mm), preferably one with a wide aperture (1.4; 1.8; 2; or 2.8) for shooting in lower light conditions
- A downloaded manual for your camera
